

SCHOOL DAY BIOBLITZ

You are invited! Join For-Mar Nature Educators and Scientists from the University of Michigan-Flint for our Annual School Day BioBlitz event.

FRIDAY, OCTOBER 10TH
8:30AM - 2:30PM
AFTERSCHOOL BIOBLITZ: 4:00 - 6:00PM

WHAT IS A BIOBLITZ?

This is an opportunity for scientists to engage and educate the public about the importance of biodiversity through hands-on experiences. During our School Day BioBlitz, scientists and volunteers from the public, like you and your students, will team up to explore the For-Mar property to identify as many species as possible. Various wildlife hikes, presentations, activities, and live animal experiences will be available, including frog, snake, plant, turtle, and insect studies. Specific event information and schedules will be available closer to the event.

This is a **FREE FOR-MAR FIELD TRIP OPPORTUNITY** where student groups, grades K-12, can take part in real-life citizen science activities and meet scientists who work in outdoor recreation, wildlife, and environmental fields. This event is on Friday, October 10th, from 8:30 am - 2:30 pm.

Our afterschool Bioblitz event from 4:00 - 6:00 pm is great for scouting groups, after-school programs, homeschool groups, and individual families!

Some busing reimbursement is available up to \$100 on a first-come, first-served basis.

REGISTER FOR FREE TODAY!

Pre-registration is required by 9/26/25.
